Kursinformationen

Zielgruppe
This online seminar is for all those shipping lithium cells and batteries in order to get prepared for the upcoming changes..

Voraussetzung
For this online seminar there are no requirements.

Prüfung
This online seminar is without an exam.
Attention: For shipping lithium cells and batteries according to Section I, IA and IB of the respective packing instruction in air transport anyone needs a certificate recognized by the appropriate national authority for packer (B**/B***) respective shipper (A**/A***) which can only be obtained through a special course including a final exam.

Abschluss
You will receive a certificate of attendance as proof of a training according to 1.3 ADR, 1.3 IMDG Code and of adequate instructions according to 1.6 IATA DGR.

Attention: To receive this proof it is necessary that your camera is switched on during the whole online seminar.

Methode
We will present the new and change regulations and will have plenty of time for your questions

Inhalt
New and changed regulations for shipping lithium cells and batteries in road transport as per ADR, sea transport as per IMDG code and air transport as per ICAO TI / IATA DGR.

Weitere wichtige Informationen
This online seminar will take place in our Virtual Classroom via Zoom. If you have not worked with Zoom before, please let us know and we will arrange a date for a technical check beforehand. The online seminar will be recorded and all participants will get free access to the recording. For anyone who can´t make the scheduled date and has no license for the Lithium Battery Service Portal the recording will be available for purchase.
